

# Your Animals Are Talking. Are You Listening?<sup>SM</sup>

Join instructor Polly Klein in this exciting two-day class on telepathic animal communication. During this weekend you'll take part in exercises that will help open your mind to hearing the animals around you!

The focus will be on practical experiences that will allow you to talk with animals in person.

You will learn how to

- communicate with animals distantly
- receive information from animals and develop techniques to refine your own abilities
- send information to animals in ways that are clearly understandable
